## Investment Options

There are two investment options which qualify for the Dominica Citizenship by Investment Program:

### Investing in the Government Fund

The investment requires a one off contribution to the government fund according to the following scale:

Government Fund	Required Contribution
	USD 100,000
	USD 175,000
	USD 200,000
	USD 200,000 + USD 20,000 for each additional dependant under 18 years*

\*An additional payment of USD 50,000 is required for each dependant over the age of 18. Please contact us for further clarification on who qualifies as a dependant over the age of 18.

In addition to the above qualifying investments, the applicant will need to pay costs relating to processing the application including legal fees, application fees, due diligence and interview costs.

### The Application Process

The CS Global Partners team will guide you through the application process. A background check is commissioned from a government assigned due diligence agent. There is an additional fee payable for the due diligence and verification checks. The application is prepared which we submit to the Government, and takes around 8 weeks to be processed. Once the results of the background checks are received, the Government invites the applicant to a compulsory interview. All applicants for citizenship must attend an interview in Dominica, or in some circumstances in an alternative country, where the payment of additional fees for this arrangement will be incurred by the applicant. The interview will be conducted in English and will not be waived under any circumstances. Upon issuance of the official interview letter, the contribution must be paid directly to the Government. Upon approval, citizenship is granted and your passport is issued.
